INFORMATION FOR CUSTOMERS

PACKING AND SHIPPING

We use our own good judgment, whether to ship by Mail, express, freight, or boat, unless explicit directions are received.

TRUCK DELIVERY

Customers within a hundred miles of our nursery, who are using large quantities of stock will find truck delivery desirable. This service is charged at cost.

PRICES

The prices in this catalog are F. O. B. New Brunswick. When larger quantities of plants are needed, send in your list and we, perhaps, can give a small discount.

GUARANTEE

We guarantee all our plants to be true to name and in healthy growing condition, dug and packed properly. We do not give any warranty, expressed or implied, and it is understood between the purchaser and ourselves that we shall not at any time, be held responsible for a greater amount than the original price of plants.

ALL our Rose Bushes listed are guaranteed to bloom the first season after planting, they are all two year old plants, field grown, budded mostly on the seedling understock, "Rosa Multiflora Japonica."

Planting in the Fall is advisable owing to the fact that the plants become more settled during the winter and make new fiber roots that give the plants an earlier start in the following spring and also helps produce an earlier crop of blooms.

Sometimes, however, you may not be prepared for planting in the Fall, then it is advisable to place your order during the winter, to enable us for early spring service.

We do not send out any dormant Rose plants after the 25th of April, as only potted plants can be obtained after then.

When ordering a collection of a dozen plants, please state what colors you are fond of and we will send you varieties that will give satisfaction.

Roses are just one of our specialties, we also grow all varieties of Evergreens, shrubs, Perennials, Etc., but we do not publish a complete catalog, therefore we will gladly submit a figure upon request on any particular plants that you may be interested in.

We stand by all our plants, if you are not satisfied upon receiving them, return them to us at once and your money will be cheerfully refunded.

All our Rose plants are "Super Grade Quality," 90c each plant and \$9.00 per dozen plants.

We will gladly quote prices on larger quantities.

HYBRID TEA OR EVERBLOOMING ROSES

ALEXANDER EMSLIE, H. T.—Crimson red medium size flowers with wonderful fragrance and blooms freely.

AMALIE de GREIFF, H. T.—Light shell-pink with deeper salmon in center, a full size flower.

ANGELE PERNET, H. T.—Orange, shaded with reddish apricot, a low type grower, semi-double flowers.

- ARIEL**, H. T.—Orange flame with yellow, a vigorous grower, somewhat similar to "Independence Day."
- BARBARA ROBINSON**, H. T. — Creamy-white deeper towards center, pointed buds producing several flowers on each stem.
- BETTY**, H. T.—Light coppery pink flowers, deeper when in bud, strong branching grower with good foliage.
- BETTY APPRICHARD**, H. T.—Carmine-copper with salmon reverse, opening to semi-double flowers, well known as the rose with dark and light petals.
- CAPT. F. BALD**, H. T.—Velvety-crimson large petals and slightly fragrant, a good upright grower.
- CHAS. K. DOUGLAS**, H. T.—Crimson-scarlet with pointed buds, strong branching grower, very popular variety of red.
- CHAS. P. KILHAM**, H. T.—Bright red, orange and glowing scarlet, good grower, more brilliant than Mme. Edouard Herriot.
- CHEERFUL**, H. T.—Flame pink, tinted a little with orange and yellow, pointed buds, opening to water-lily shape flowers.
- CLARICE GOODACRE**, H. T.—Creamy white with pale buff, strong grower.
- COLUMBIA**, H. T.—Bright rose pink, good grower, the wood has few thorns, a very popular variety.
- CUBA**, H. T.—Copper-red with orange-scarlet somewhat similar to Padre, semi-double, but flowers have larger petals.
- DAME EDITH HELEN**, H. T.—Clear pink, large flowers with an abundance of petals.
- DORIS DICKSON**, H. T.—Brilliant rose-pink outside petals, orange cream with shadings of red showing veins through the petals.
- DUCHESS of WELLINGTON**, H. T.—Deep saffron yellow, stained with crimson; pointed buds, very popular variety and one of the strongest yellows.
- EDEL**, H. T.—Ivory-white globular form and slightly fragrant.
- ELSIE BECKWITH**, H. T.—A glowing rosy-pink, vigorous grower, producing good stems for cutting.
- ELDORADO**, H. T.—Golden yellow opening to clear yellow with crinkled petals, an upright grower with full size flowers.
- ETOILE de FEU**, H. T.—Vivid orange pink, peony shape flower and the plant is a bushy grower.
- ETOILE de FRANCE**, H. T.—Vivid crimson and free bloomer and with medium size flowers.

- ETOILE de HOLLAND**, H. T.—Deep red with large size flower and petals considered one of the best in reds.
- FLORENCE PEMBERTON**, H. T.—Clear light pink, a double flower producing fine pointed buds.
- FRANCIS SCOTT KEY**, H. T.—Light crimson large flowers with an abundance of petals, produces wonderful blooms toward autumn.
- GENERAL McARTHUR**, H. T.—Crimson-scarlet medium sized flowers and considered one of the best bedding reds.
- GOLDEN OPHELIA**, H. T.—Golden yellow tinging yellow toward the edge of the petal, it is a seedling from the well known rose Ophelia.
- GRUSS AN TEPLITZ**, H. T.—Brilliant crimson, with medium sized flowers, producing several flowers on one stem. This variety should be planted by itself in border, etc.
- HAWLMARK CRIMSON**, H. T.—Deep maroon, opening to semi-double flowers, holds color wonderfully.
- HENRY FORD**, H. T.—Clear yellow, has tinge of salmon-orange, produces several flowers on one stem and quite a profuse bloom.
- IMPERIAL POTENTATE**, H. T.—Rose pink shaded lighter on reverse of petal has very few thorns and the plant produces good cutting stems.
- INDEPENDENCE DAY**, H. T.—Yellow with orange apricot, the plant has a strong upright branching habit, a popular variety.
- JONKHEER, J. L. MOCK**, H. T.—Deep carmine pink, produces heavy buds and full size flowers.
- KAISERIN AUGUSTE VIKTORIA**, H. T.—Creamy white with a light tinge of lemon toward the center, well known—being an old variety.
- KILLARNEY**, H. T.—Bright pink opening* flat with large size petals, free bloomer.
- KILLARNEY QUEEN**, H. T.—Deep pink, fuller than Killarney.
- LA TOSCA**, H. T.—Pale flesh pink large size buds and flowers, strong grower, also good for cutting.
- LADY ALICE STANLEY**, H. T.—Coral-pink inside of flower is flesh pink, produces good size petals and flowers.
- LADY MARGARET STEWART**, H. T.—Golden-yellow, shaded orange and streaked with red, pointed buds, has gorgeous coloring.
- LADY PIRRIE**, H. T.—Coppery pale pink opening to semi-double flower, strong grower.

- LADY URSULA**, H. T.—Light pink with well shaped buds, extra strong grower.
- LAURENT CARLE**, H. T.—Carmine-crimson with oval shaped buds, good foliage and blooms freely.
- LADY HILLINGDON**, H. T.—Saffron yellow, lighter toward the edge of petal.
- LOS ANGELES**, H. T.—Salmon pink, good grower, heavy foliage, in favored locations the plant is of excellent habit.
- MABLE MORSE**, H. T.—Clear yellow, low bushy type, growth with beautiful foliage.
- MARY PICKFORD**, H. T.—Orange-yellow buds opening to clear yellow, an upright grower.
- MISS LOLITA ARMOUR**, H. T.—Reddish-copper buds and opening into creamy copper flower, a good upright grower.
- MME. BUTTERFLY**, H. T.—Light pink tinted with yellow, much like Ophelia in growth and habit.
- MME. CAROLINE TESTOUT**, H. T.—Satiny rose, popular variety and good grower.
- MME. EDOUARD HERRIOT**, H. T.—Coral-red and orange pointed buds, opening to semi-double flower, good standard variety.
- MME. JULES BOUCHE**, H. T.—White, shaded light blush toward center, good grower and for bedding.
- MME. JULES GROLEZ**, H. T.—Bright rose pink, pointed buds and free flowering.
- MME. RAVARY**, H. T.—Golden cream sweetly perfumed, and low growing habit.
- MRS. AARON WARD**, H. T.—Golden buff with orange shading to pink, small flowers but giving an abundance of bloom, low grower.
- MRS. ARTHUR ROBERT WADDELL**, H. T.—Copper pink with yellowish shading, darker than Lady Pirrie, a spreading and bushy growing habit.
- MRS. CHAS. BELL**, H. T.—Soft light salmon pink, same type of flowers and growing habit as the Radiance varieties.
- MRS. ERSKINE PEMBROKE THOM**, H. T.—Bright canary yellow, pointed buds and upright growth, full flower.
- MRS. HENRY BOWELS**, H. T.—Rose pink, large flowers and grow in a bushy habit, very good bedding variety.
- MRS. HENRY MORSE**, H. T.—Pink with light salmon and pale yellow, unusual shades of pink, low growing habit.
- MRS. HERBERT STEVENS**, H. T.—Pure white and lightly fragrant, giving an abundance of bloom.

MRS. W. E. NICKERSON, H. T.—Soft rose shaded with salmon-yellow, pointed buds, strong growers.

MRS. WILLIAM C. EGAN, H. T.—Flesh color with lighter shade of soft pink, vigorous grower of branching habit.

OPHELIA, H. T.—Pale-pink with yellow in folds of petals, a popular garden rose and good for cutting.

PADRE, H. T.—Copper scarlet, shading yellow at base, a striking color, opening to semi-double flowers; an upright growth.

PAX LABOR, H. T.—Pale yellow blooms, deeper toward center, vigorous grower.

RADIANCE, H. T.—Rose pink with globular shaped buds, rank grower and very popular.

RED RADIANCE, H. T.—Deep rose red, same growing qualities as Radiance.

REV. F. PAGE ROBERTS, H. T.—Copper-orange, suffused crimson opening to yellow, remarkable color, has low habit.

RICHARD E. WEST, H. T.—Delicate light yellow, shading to lemon, pointed and the same growing habit as the Duchess of Wellington.

ROSELANDIA, H. T.—Clear golden tea yellow, good blooming and medium size growing habits.

ROSE MARIE, H. T.—Clear rose pink, fragrant and strong grower.

SENATEUR MASCURAUD, H. T.—Light yellow tapered buds and bushy growing habit.

SHOT SILK, H. T.—Copper rose faintly tinted with apricot and yellow.

SOUVENIR de CLAUDIUS PERNET, H. T.—Rich yellow fading toward the edge of petals, better flowers are produced in cooler weather.

SOUVENIR de GEORGES PERNET, H. T.—Carmine pink in bud, immense size flower, very double, deliciously fragrant; bloom freely, stocky, dwarf plant.

TALISMAN, H. T.—Yellow, shaded orange with reddish streaked flower, pointed buds, has glossy foliage.

VILLE de PARIS, H. T.—Buttercup yellow, clear coloring, pointed buds and grows in upright form—a promising good yellow.

WILHELM KORDES, H. T.—Golden salmon tinted with copper, veined with carmine, has a medium size growing habit.

WILLOWMERE, H. T.—Light salmon pink with faint yellow at the base of the petal and producing full flowers; an upright grower.

WINNIE DAVIS, H. T.—Pale rose pink, pointed buds, free bloomer, and vigorous grower.

PERPETUAL or JUNE ROSES

These roses are practically hardy in all parts of the United States. They bloom mostly during the month of June.

FRAU KARL DRUSCHKI, H. P.—Pure white, grows 4 to 10 ft. often called Snow Queen.

GENERAL JACQUEMINOT, H. P. — Scarlet crimson, known as old fashion Jack Rose, grows 4 to 6 ft.

GEORGE ARENDS, H. P.—Soft pink, often called the pink Druschki, grows 5 to 6 ft.

J. B. CLARK, H. P.—Light red, globular shaped flower, grows 6 to 12 ft.

MAGNA CHARTA, H. P.—Bright pink, very fragrant, grows 4 to 6 ft.

MRS. JOHN LAING, H. P.—Clear pink, very few thorns on plant, grows 4 to 6 ft.

MRS. R. G. SHARMAN, H. P.—Crawford rosy pink, lighter toward the base of the petals. Grows 4 to 6 ft.

PAUL NEYRON, H. P.—Lilac-rose, strong grower. Grows 6 to 10 ft.

PRINCE CAMILLE de ROHAN, H. P.—Dark crimson, often called "The Black Rose." Grows 4 to 6 ft.

POLYANTHA ROSES or DWARF EVER-BLOOMING RAMBLERS

These little roses are very useful for bedding edges; massing and often in foreground shrub plantings, also very hardy and need little or no protection.

CECILE BRUNNER—Light pink with formed buds as a large rose, growing in clusters, often called "Sweet Heart Rose."

CHATILLON ROSE—Bright pink, the trusses are very large.

EBLOUISSANT—Very dark red, a dwarf grower and of striking color.

ELLEN POULSEN—Rose pink branching type grower.

EVA TESCHENDORFF—Pure white with greenish centers.

GEORGE ELGER—Yellow buds, the flower is similar to that of Cecile Brunner, needs some protection in winter.

GOLDEN SALMON—Bright orange clusters, a very extraordinary color in this type of rose.

GRETA KLUIS—Deep pink, the flowers are a small globular type.

GRUSS an AACHEN—Flesh pink and salmon-yellow, similar to the Hybrid Tea—Mrs. Aaron Ward, only the flowers are produced in clusters.

LAFAYETTE—Light crimson, large clusters, very decorative.

MME. NORBERT LEVAVASSEUR—Bright purple crimson, known as Baby Rambler.

ORLEANS—Brilliant light red, a beautiful massing variety.

CLIMBING ROSES

ALBERTINE, H. W.—Coppery rose pink, the foliage is beautiful and shining.

AMERICAN PILLAR, H. W.—Brilliant crimson pink, white center and free producer.

AVIATEUR BLERiot, H. W.—Light yellow when in bud, streaked with crimson, needs some protection during winter.

CHRISTINE WRIGHT, H. W.—Rose pink, strong grower and blooms quite early.

CLIMBING AMERICAN BEAUTY, H. W.—Deep carmine color and has wonderful fragrance.

DOROTHY PERKINS, H. W.—Clustering shell pink flowers, quite well known.

DR. HUEY, H. W.—Dark red with maroon shading, has yellow anthers which makes it very showy.

DR. VAN FLEET, H. W.—Pale pink, produces flowers with stems like Hybrid Tea, very well known.

EMILY GRAY, H. W.—Golden yellow and fine glossy foliage.

EXCELSA, H. W.—Scarlet crimson flowers are in clusters.

GARDENIA, H. W.—Yellow opening to creamy white flowers, a good dependable yellow climber.

HIAWATHA, H. W.—Brilliant carmine dazzling red producing large clusters, strong grower.

LE REVE—PER, H. W.—Golden yellow buds opening to bright yellow flowers, a good pillar type.

MARY WALLACE, H. W.—Large bright pink one of the finest climbers, producing fine stems for cutting.

PAULS SCARLET CLIMBER, H. W.—Deep scarlet, flowering in small trusses, is a very attractive red.

ROSERIE, H. W.—Deep pink produced in clusters, a good pillar type, the wood is practically thornless.

SILVER MOON, H. W.—Creamy white with yellow anthers, the flowers open single, has fine glossy foliage.

ROSA WICHURAIANA, H. W.—For covering rocky slopes, banks, etc. called (Memorial Rose).

SHRUB ROSES

AGNES—Orange yellow buds, opening to rich buff yellow, very effective when planted in shrub borders or as a hedge.

CONARD F. MEYER—Large silver pink flowers giving long stems, growing to 12 and 15 ft.

F. J. GROOTENDORST—Bright red clusters, everblooming through the season, makes good hedge or shrubby borders.

PINK GROOTENDORST—Clear light pink, a sport from F. J. Grootendorst.

SARAH VAN FLEET—Rose pink, opens to flat flower and shows stamens, is a fine type of Rugosa.

DR. E. M. MILLS (Hybrid Hugonis) — Blooms semi-double primrose shaded salmon pink. Bush grows about 3 to 4 ft., effective in early spring.

RUSKIN—Large crimson red flowers, similar to those of a perpetual type, tall growers—above 5 or 6 ft.

MISCELLANEOUS ROSES

ROSA HUGONIS—This wonderful specie, from China, is unlike any other rose. It is a strong grower and beautiful by itself or as hedge, it produces long arching sprays early in May.

A COMPLETE LANDSCAPE SERVICE

We gladly give estimates and specifications for the following work:

Foundation plantings, rockeries, rose gardens, perennial borders and also trimming and transplanting of your present Evergreens and plants.
